

ROYAL-GROW®

Calcium Nitrate

- ✓ Fast acting
- ✓ 100% water soluble
- ✓ Cost effective solution for calcium deficiency

Herbicide compatible
Mix well before using • Store above 32° F

Net contents:
2.5 gal. (9.46 L.)

Calcium Nitrate is a 100% water soluble, macromolecular clear liquid solution. As water quality declines due to heavy salt and mineral compaction in soil to increasing salinity, plants can experience calcium deficiency injury and reduced yields. Calcium Nitrate is a cost effective and easy to use solution for dealing with calcium deficiencies.

This product is designed to be used on various row crops, turf, lawn and vegetable gardens. Shake well before using.

For proper application rates suitable for your geographical area, please consult the Royal-Grow website, a distributor or a trained soil specialist at Royal-Grow liquid fertilizers and soil conditioners. Information regarding proper application rates is available at www.royal-grow.com/applicationrates.
