

## Liquid Starters

**3-18-18 • 9-24-3 • 6-24-6 • 9-18-9**

*Clean, affordable supplements designed to build soil quality and improve crop performance.*

### **Versatile Application:**

These supplements are recommended for agricultural crops for in the row, beside the row, or foliar applications. The liquid products allow for more even coverage and even flow. The nutrients in Royal-Grow products are immediately available to the plant during the critical, early growth stages. These liquid starters can be applied with most herbicides, insecticides and fungicides.

### **Environmentally friendly:**

- Non-corrosive
- Non-toxic
- Salt index less than 35 percent
- Low pH levels
- Zero heavy metals

### **Customer Support and Service:**

The Royal-Grow team is dedicated to supporting the end-user of our liquid fertilizers and soil conditioners. Our representatives are always available to help you make proper fertilization and soil maintenance decisions.

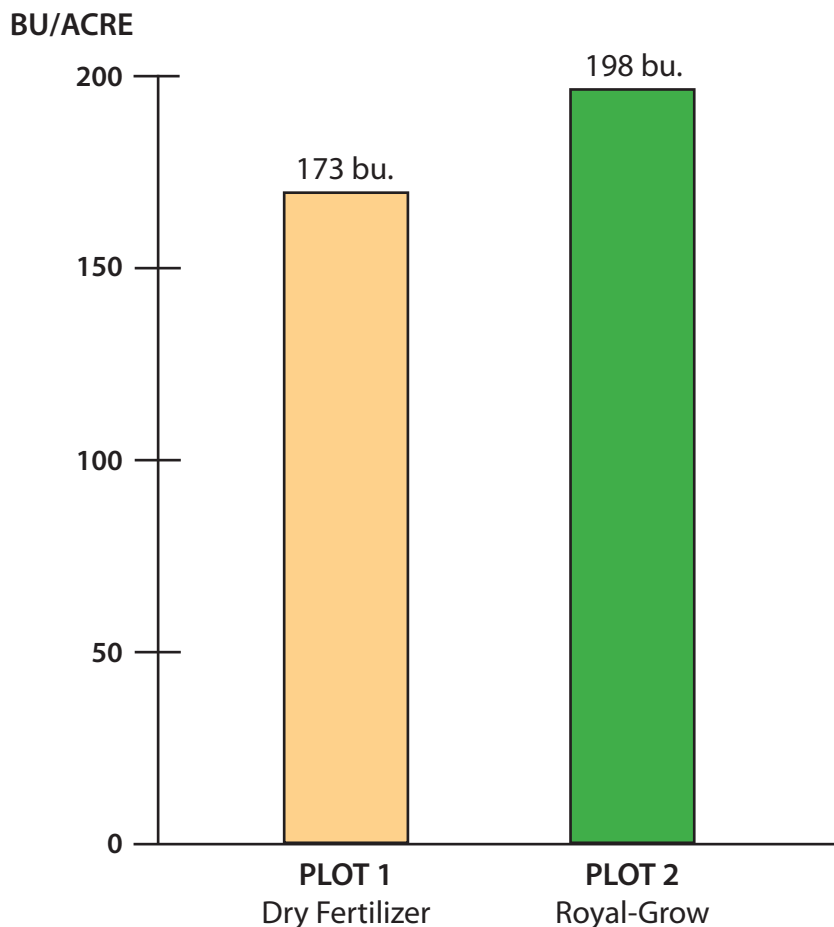

If you have any questions about the products, pricing, application rates or results, please feel free to contact a Royal-Grow representative.
