

Transcend

Reduce the limiting factors in your field!

Transcend is a blended product of Enzyme Max, AMP and a micronutrient pack formulated for application in-furrow for maximum efficiency during wheat, corn and soybean planting.

Transcend promotes deep roots that help with drought resistance. It increases earlier growth and maturity, lowers moisture at harvest, improves root mass, and increases yields and profits.

Expect the best yield response when using Transcend!

- Essential for vigorous root and shoot growth.
- Increases water-use efficiency.
- Enhances early-season growth and increases root mass.
- Improves nitrogen efficiency and uptake.
- Promotes earlier maturity and lower moisture at harvest.
- Helps increase organic matter.
- Increases micronutrient uptake and foliar absorption of various nutrients.
- Keeps foliage green longer throughout growing period.
- Increases yield and improves quality of crop.

Application Rate: 16 - 64 ounces per acre.

GUARANTEED ANALYSIS:

Calcium	0.95%	Phosphorus	3.0%
Magnesium	0.375%	Brown Sugar	5.0%
Boron	0.1125%	Humic with Carbon	2.0%
Copper	0.225%	Seaweed Extract	0.5%
Iron	2.5%	Microbes	5.0%
Manganese	1.7%	Total Nitrogen	5.0%
Zinc	1.0%	Inert Ingredients	67.64%
Potassium	5.0%
